

## HQ440d Benchtop Meter Package with ISENA381 Sodium ISE Electrode

**Product #: 8507000**

Call for ship date

Designed for your water applications, the Hach HQ440d laboratory meter is an advanced meter that takes the guesswork out of measurements. HQd™ meters connect with IntelliCAL™ probes that automatically recognize the testing parameter, calibration history, and method settings to minimize errors and setup time.

### **Flexible benchtop meter makes your lab testing of critical water quality parameters more efficient**

Two input channels for simultaneous measurement of pH, Conductivity, Dissolved Oxygen, BOD, ORP, Ammonia, Ammonium, Fluoride, Chloride, Sodium, and temperature - any IntelliCAL™ smart probe.

### **Intuitive user interface for simple operation and accurate results**

Guided calibration and check standard routines reduce calibration errors. Stabilization alerts and visual measurement lock ensure that you can trust in the accuracy of the results.

### **Trust your measurements - IntelliCAL™ smart probes store all calibrations in the probe**

Calibration history allows quick and easy change out of probes without re-calibrating. The HQd smart system records serial numbers, current calibration data, user ID, sample ID, time, and date automatically in the data log for complete GLP traceability.

### **Enhance productivity with an ultra-bright screen and large font size for easy to read results**

Internal USB ports simplify data transfer, peripherals, and software updates and connection to PCs printer and keyboards.

### **Convenient kit includes everything you need to start testing**

Meter package includes HQ440d Benchtop Meter, ISENA381 sodium electrode, sodium standard solutions, ionic strength adjustor powder pillows, probe stand, 4 AA batteries, power adapter, USB cable for data transfer, quick-start guide, user manual, and documentation CD

---

## Specifications

Conductivity resolution:	0.01 $\mu$ S/cm with 2 digits
Inputs:	2
IP Rating:	IP67
Parameter:	pH, mV, ISE, DO, Conductivity, TDS, Salinity, Resistivity, ORP, Temp

---

## What's in the box?

Meter package includes HQ440d Benchtop Meter, ISENA381 sodium electrode, sodium standard solutions, ionic strength adjustor powder pillows, probe stand, 4 AA batteries, power adapter, USB cable for data transfer, quick-start guide, user manual, and documentation CD
